About Us

Who We Are?

Neovera is an IT services company which focuses on three primary areas:

- ◆ Application Development

We distinguish ourselves from other IT services firms by providing a combination of senior level application experts with world-class infrastructure engineers.

We focus on customers who are looking for a higher-end level of IT services and personal attention that cannot be easily obtained internally nor via smaller niche providers or larger consulting firms.

With Neovera our clients receive industry experts at exceptional value. This coupled with a high degree of personal attention, flexibility and company commitment makes Neovera a unique alternative to traditional IT Services firms.
