

## \$20B FinTech Leader Accelerates Platform Development - Wins New Market Share

### CHALLENGE

- Rapidly growing financial institution with complex trading processes
- Pressure to accelerate product/service innovation to enter new markets
- Large number of internal/external stakeholders with competing priorities
- Difficult to execute project in-house due to process & resource constraints

### APPROACH: CORE-FLEX DEVOPS PARTNERSHIP

- Small agile multidisciplinary team works with key client stakeholders across product life-cycle

### SOLUTION OUTCOMES

- Highly adaptable, scalable, fault-tolerant and cost-effective cloud architecture - including advanced business process automation
- Consistent delivery of all platform objectives on-time and on-budget - including smooth platform launch and 24x7 post go-live monitoring/support
- New platform recognized by client as significant success - achieving immediate traction + strong steady growth in adoption/usage/market-share
- Neovera continues to lead on-going platform development and support in close collaboration with client teams - including consistent predictable time-to-market for new features and enhancements

Neovera is the leading provider of strategic IT consulting and managed services with 24x7 engineering operations based inside the largest cloud/isp peering-hub in the world.
